With over **8.5 years** of experience in software development, specializing in the banking domain, proficient in **Java 17, Spring Boot, Spring Framework**, and **REST APIs** for developing robust **microservice applications**. Advocate of **clean coding** practices, **agile methodologies**, and **test-driven development**, enabling me to tackle challenging problems effectively. As a certified **AWS Solutions Architect** with a solid understanding of cloud technology, I bring a comprehensive skill set to the table.

Skills

Java 17 • Springboot Microservice • AWS • Agile • React • BDD/TDD • Unix/Linux •
JavaScript • Testing — Junit, JMeter, Mockito • **Database** — Oracle, DB2, Postgres, SQL

Career Highlights

Senior Software Consultant, 2021/11 – present | Singapore

DBS Bank (Client) - Matrix Process Automation

- Designed and developed scalable **Java microservices** using **Spring Boot**, exposing new **REST APIs**, and performed code reviews. Led a team in Spring Boot upgrades, achieving zero-vulnerability status through best practices.
- Delivered a major project, enhancing notification preferences in a digital app for over **2 million users**.
- Achieved cost reductions through complex **SQL queries** on SQL and maria DB databases.
- Deployed services to **PCF** and **Red Hat OCP** with **Kubernetes**, integrated with **AWS**, created **Docker** images, and set up auto-scalers and load balancers.
- Applied advanced **data structures** and **algorithms** to optimize performance and ensure efficient handling of large-scale data. Implemented **concurrency** and **multi-threading** techniques to improve application performance and responsiveness.

Associate, Bank of Julius Baer (Client) - Cognizant Technology Solutions 2019/02 – 2021/11 | Singapore

- Designed and developed the Client Pricing Portal, using React JS and Spring Boot for the front office.
- Led lifecycle upgrades for EOL components, including **jBoss**, **BRMS**, **PHP**, and **Redis** cache.
- Completed a **BRMS Rules Engine** upgrade with guidance from Redhat experts.
- Implemented audit functionalities and integrated MAS regulatory changes into the KYC system of CRM application and deployed to linux server.

Associate, Bank of Julius Baer (Client) - Cognizant Technology Solutions 2016/03 – 2019/02 | Pune, India

- Designed and developed Java applications using **Kafka**, **MQ**, and **batch processing**.
- Implemented a Java satellite service for core banking, including customer data encryption/decryption.
- Utilized developer tools like **Jenkins**, **Jira**, **Bitbucket**, **Git**, **Maven**, **Splunk**, and **Grafana** to streamline the development process.

Certificates

AWS Certified Solution Architect - Associate (08/2022 - Present) ☑

Education

B.E. in Electrical & Electronics Engineering, 2011/06 – 2015/07 | India

Visvesvaraya Technological University (VTU)

Bachelor of Engineering with score of First Class with Distinction.
